

*Teaming up with LEVERAGE has greatly improved our debit card program. They give us the tools and training we need to effectively serve our membership. Our debit card department has never been better!*

**Lindley McKellar III, VP Electronic Services  
Jackson Area FCU, Mississippi**

**LEVERAGE** Card Services makes developing and managing a successful debit program simple. One comprehensive solution provides secure and easy transactions for members. Credit unions see cost-saving benefits through a consolidated infrastructure, network connections, authorization processes, and settlement points. Our commitment to superior service and staff expertise makes **LEVERAGE** Card Services the solution for growing an effective card program.

Card**Services**

*We have used ePurchasing events to buy several services and have not experienced less than a 20% cost savings; in more than one case resulting in 40% savings. I won't purchase another contract without it.*

**Dennis Holthaus, CFO  
Achieva CU, Florida**

**LEVERAGE's strategic buying solution reduces expenses by combining purchase volume and encouraging competing companies to more aggressively bid for the business. From the savviest buyer to the novice, these strategic buying services are suited for credit unions of all sizes and secure an average immediate savings of more than 25 percent. By using this solution, credit unions leverage their buying power, reduce capital, and see real savings on almost anything they need.**

*The financial industry is one of the most targeted when it comes to data theft; proactive identity protection and fraud detection mitigate the impact of these attacks quickly and easily, building member trust.*

**CSID, Leader in Identity Protection & Fraud Detection**

**LEVERAGE's member security solution increases non-interest income and strengthens member relationships through an unmatched authentication program. The program offers a variety of two-factor authentication options that go above and beyond basic passwords and security solutions. Our technology proactively detects stolen Personally Identifiable Information (PII) and compromised confidential data on an international level and alerts members if it finds their PII being bought or sold online.**

**LEVERAGE**  
Your Advantage

*Due diligence collection activities are very intense. The step-by-step process that LEVERAGE has in place makes it extremely easy for multiple people within our credit union to manage the process.*

**Zac Howell, Vice President  
Family Security CU, Alabama**

**LEVERAGE's contract management solution improves regulatory compliance by automating the entire process. Credit unions have one system for managing contracts from start to finish. It provides peace-of-mind when preparing for your next exam with tools for organizing; assessing risk; tracking third-party agreements; and ensuring critical document retrieval. Plus, credit unions that use this solution average a higher score on the management section of their exam than those that do not.**
